

REMARKS

According to the Examiner, the amendment filed on April 21, 2009 is not fully responsive because the "Coriolis flow meter" limitation on line 10 in the body of claim 14 was struck out. The claim is shown amended with the above mentioned limitation retained.

In view of the foregoing, Applicant respectfully requests reconsideration and examination of the enclosed claims. Applicant further submits that the enclosed claims are allowable for the same reasons as pointed out in the response dated May 2, 2008. Applicant points out that no fees are required for the enclosed claims, since payment was rendered along with the response dated May 2, 2008.

III. Conclusion

Applicants submit that the subject matter of the present application is novel, nonobvious, and useful. Accordingly, Applicants respectfully request that the rejections and objections be withdrawn and that the present application issue as early as possible.
